# 18F Overview

# Overview and Mission

- 18F is a newly formed organization within GSA
- Mission: Transform the way the government builds and buys Information Technology, with an emphasis on public-facing digital services
- 18F is a fee drive organization, largely operating under the authority of the Economy Act
  - Federal agencies approach 18F with a need or an opportunity
  - 18F enters into an Interagency agreement to provide one or more of its lines of service.

# 18F - Lines of Services

- Delivery - Design, build, and operate effective, user-centric digital services focused on the interaction between government and the people and businesses it serves.
- Consulting - Provide hands-on consulting services to Federal program managers and other leaders who need assistance in designing and managing software acquisitions that use modern development techniques

# Scope of BPA

# Scope

- Provide a streamlined process to support 18Fs need for agile delivery services, including:
  - User-centered design;
  - Agile architecture;
  - Agile software development; and
  - DevOps
- Available for use by the GSA18F program office:
  - Internal purchases
  - Assisted acquisitions to support other Federal agencies.
